Evans Chiropractic Health Center William M. Rice, D.C., P.C.

108 SRP DR STE A | EVANS GA 30809-3319 | 706-860-4001

Terms of Acceptance

When a patient seeks Chiropractic health care and we accept a patient for such care, it is essential for both to be working toward the same objective.

Chiropractic has only one goal. It is important that each patient understands both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: The adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Health: The state of optimal physical, mental, and social well being, not merely the absence of disease of infirmity.

Vertebral subluxation: A misalignment of one of more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of nerve impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer diagnosis or treat any disease. We only offer to diagnose either vertebral subluxations, or neuro-musculoskeletal conditions. However, during the course of a chiropractic spinal examination, we should encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we will recommend that you seek the services of another health care provider. Our only method is specific adjusting to correct vertebral subluxations. However, we may use other procedures to help your body hold the adjustments.

Ι

______have read and fully understand the above statements. (print name)

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction.

Therefore, I accept chiropractic care on this basis.
